Editorial Board

"You write to communicate to the hearts and minds of others what's burning inside you, and we edit to let the fire show through the smoke." - Arthur Plotnik

The key of fantastic writing is to prune and trim, remove every superfluous word and present a heartwarming read. As editor, I found it enlightening to delve into creative minds to whittle and prune their grandiose expressions.

Seldom is one privileged to live in exceptional times; the world is oscillating between what has been and whatever is to come. An exotic moment, one in which the world as we know is disappearing into the great unknown. The coronavirus tsunami has swept away in its wake, all that we know to be normal. The pandemic has changed the world forever. And how. The 2020 lockdown has left its indelible mark on all humankind.

The adage, what we go through is what we grow through, has never sounded truer than now. The pandemic may have compelled us to stay indoors, but it could not curtail the creative juices from flowing perennially. Undeterred, the incarcerated writers and poets of The Indian School put forth an impressive collection of passionate writings.

It has been a privilege to witness gifted students compile an extensive anthology of artwork, poems, stories, and articles. This magazine is more than just a compilation; it is a timeless masterpiece waiting to be unwrapped and savoured.

I proudly present Indianite, our prismatic publication of splendiferous writings. It is bright and beautiful and offers a ray of sunshine amidst the over-darkened ways of the Covid-19 pandemic.

This kaleidoscopic magazine is a harbinger of hope, love, and compassion to a world that is slowly but surely getting back on its feet.

I wish our readers une lecture joyeuse!

A walk down the memory lane

"We, at THE INDIAN SCHOOL, endeavour to provide a curriculum with a difference. One that balances excellence in learning with an all-round cultural, physical, mental and moral development. Our attempt is to make the most formative and beautiful years of our students' lives a joy forever.

We try to build ocean liners with Indian anchors and ethical rudders."

Prafull Goradia, Former Member of Parliament

This year, The Indian School completes 25 years of excellence in the field of education. The School has grown from strength to strength in the past 25 years. As we celebrate a milestone of significant achievements, our oldest teaching staff takes a walk down memory lane.....

A JOURNEY OF A LIFE TIME

'Don't look back', people say,
But if I may disobey,
I would like to turn around and gaze
At 22 years of my stay.
My journey,
From being a primary school teacher,
To a housemistress,
to the middle school coordinator...
I have been asked to sum up in a few
lines
And speak about all the years that I
have spent
At my workplace, my temple, my shrine.
When I came to The Indian School in
1999,
The building had a sparkling shine.
The ground was green,
So pristine,
There was no skating rink or canteen.
The lone 'Tree of learning',
that stood in the corner of the central
square,
is still there.
The chimes of the metal bell, standing
next to it,
I can still hear.
Happy children and doting teachers,
Were the school's salient features.
Under the guidance of an able
leadership,
Established a long lasting partnership.
Working for a common mission,
Were all the stake holders.
The duty of raising responsible global
citizens,
(Our ocean liners with Indian anchors
and rudders)
Rested on our strong shoulders.

Over the years,
When I think about these students,
Eyes fill with joyfull tears.
As the children grew,
The school also soared to new heights
And time flew.
With each passing year, CBSE results
bettered...

To a multi-talented set of students we
catered.
Their innate talent and abilities were to
be explored,
The annual debates and MUN, they
immensely adored.
Sports and Annual day were eagerly
awaited,
Enthusiastically, everyone participated.
A galore of competitions were held,
At every event our students excelled.
And with the growth of the school's
reputation,
With pride, our hearts swelled.
Reaching to the spot of #1 was like a
dream come true,
It was the end product of sheer hard
work of the entire crew.
With perspiration and sincerity, no
stone was left unturned,
We have reached far away from where
we had begun.
'Don't look back', people say.
But if I may disobey,
I will, as I have a reason to smile,
My colleagues and mentors and all
those,
With me, who walked the extra mile,
Were always there with me in my ups
and downs,
Comforted me whenever I frowned.
This journey of mine would be lifeless,
Without the love and affection of my
adorable students
Who always accepted my criticism with
equal prudence.

'Don't look back', people say,
But if I may disobey,
I would look back each time and forever
cherish
These happy memories,
Lest they disappear and completely
perish.

---Sandhya Batheja
TGT-Maths

'Education is the most powerful weapon that can be used to change the world'

The success of any educational institution is determined by the impact it creates in young minds. These are the minds that will one day grow to become the pioneers of this generation.

The Indian School is one such institution that has grown from strength to strength in the past 25 years since its inception. The school's greatest accomplishment is to see its students ride the road of not only much deserved success, but to see them exercise profound wisdom in their actions, maintaining clarity of thought, and feel a deep-seated urge to change the world.

The year 1999, saw me climb the steps of The Indian School for the first time for an interview, little knowing that it would be my little world for the next two & a half decades. Mrs. Mondira Bharadwaj the then Principal of this institution, inducted me into this school. Thereafter, I have had the privilege of working with the subsequent Principals - Mrs. Poonam Chopra, Mrs. Manleen Ahluwalia, Mrs Rashi Narula & our very own Mrs. Tania Joshi.

As I look down the memory lane, a sense of pride engulfs me to see how I have grown as a human being, together with the institution! When I joined, the school had classes from Nursery to Class vi. But under the guidance of Mr Prafull Goradia, Dr. Mrs. Naina Goradia, Mr Lal Raisinghani, Mrs Brinda Shroff & Mrs Madhavi Diwan, the school has reached lofty heights.

As I sit to pen down my thoughts associated with The Indian School, I am reminiscent of so many incidents & anecdotes that have left an everlasting impression on my mind. I am reminded of the summer camps for the little ones (Class 1) – an overnight stay in tents in the school playground, teacher's day celebrations at high end hotels, annual dinners at the Chairman's residence in Sunder Nagar, our management sponsored trip to Neemrana Fort Palace after the first, Class X Board Results of TIS, workshops at the IIC, overseas trip to Europe & the United States, organising house events, plays, poetry recitation, debates, summer & winter trips – the list is exhaustive!

If I have evolved and grown as a human being & as a teacher, the credit of it all goes to this esteemed institution! Everything associated with technology, I humbly owe it all to The Indian School!

I indeed feel privileged for having been given so many opportunities to learn & grow, for which I thank and am grateful to the management & the principal!

I often ask myself – “If not The Indian School, then where?” And honestly speaking – I don't have an answer!!

- Mithu Ghosh
TGT-English

Respected members of the Management, Principal Mrs. Tania Joshi, Vice-Principal Dr. Anu Singh, Fellow Teachers, Staff Members, Dear Students and Parents,

My warm wishes to all as our school has completed 25 glorious years of service to the nation.

Under visionary and able leadership of our Management and our respected Principal, the school has come a long way since 1996, when it was founded by the Gyan Mandir Society in the heart of South Delhi.

Ever Since, the school has been growing year after year. Though not very well known in the starting, today as per www.News18.com, The Indian School is among the top 10 schools in South Delhi, among top 20 schools of whole of Delhi and in top 120 best Schools in India.

This achievement speaks on its own about the sincere hard-work put in by all respected contributors and the visionary and able management of the school. It is the vision of our respected Chairman Shri Prafull Goradia Sir, to build leaders with Indian values and ethics that the School has been growing and has achieved present rank.

When I joined the school in April 2000, the school was operating till class 7th only and today, so many batches have passed out after completing 12th class. I feel proud to be part of the school. I take this opportunity to thank the Management and Principal as it is not just the school, which has grown but I have also grown over the years not just in terms of knowledge, but also in term of the respect that I get introducing myself as a teacher in our esteemed school.

I wish all the best to the school for all future endeavors and may school's flag flutter high n high.

Mrs Kajal Soni

TGT HINDI

Jubilees are occasions to be celebrated, to recall the marvellous ways in which the school has fulfilled its mission in imparting education, moral and spiritual values, and discipline to help build leaders who will bring about a culture of peace and love which our society and country needs today. They also provide an opportunity to reflect on the past achievements of the school as well as introspect on the preparations to meet the challenges that lie ahead.

When we honour the past, we energize the future and the present becomes a celebration. The Silver Jubilee could well be called the Year of Gratitude, because we have so much to be thankful for.

I started my teaching career with The Indian School as a Kindergarten teacher way back in 1997. I have been associated with this prestigious institution since then. This place has been a temple of learning growth and evolution for me and is just like my second home. This wonderful institution has been a great source of learning for me and I have grown personally and professionally along with this institution.

I have always received a lot of encouragement from the management, principal, vice -principal and co-ordinators I have worked under. I have had good camaraderie with my colleagues. The students have also helped me in my growth as a teacher. It has been a wonderful experience which I shall cherish forever. I hope and pray to the almighty to give me strength to continue serving this institution in the same way as I have been doing since the start.

In the end, I would like to extend my best wishes to 'The Indian School' and the management for completing 25 glorious years and to have many more successes and achievements in the years to come. I wish the school to reach its pinnacle of success.... I hope that this silver turns into gold..

-Othilia Fernandes
PRT

"We started with a few, but now we are many. Not only in numbers but also in talents and achievements. I feel very fortunate to have been a part of the 25 year journey of this wonderful institution. Each day has been a day of growth and learning. I have learnt something everyday through this journey and grown as a teacher with remarkable institution. From compassionate and empowering colleagues to a camaraderie that we all share to achieve the goal of brightening our students futures, this journey has just begun. A lot of hard work has gone into being the name it is today and we all are fortunate to have been a part of this journey in some way or the other. Each day begins with a sense of enthusiasm, vigor , purpose and I hope and wish we continue to do the same for years to come. Time is the most valuable gift one can give and as we complete a milestone today, I wish to be able to give back to this institution as much as it has given me. "

Regards
Priya Kulkarni
PRT

Looking back on my 23-year teaching career at The Indian School

When I joined the Primary Wing of the Indian School way back in 1999, the first thing that took me by surprise was the amount of life experience children bring to the classroom. To be frank, even from my present vantage point of a Geography teacher in High School, it still catches me off-guard. As the former US President Abraham Lincoln put it, “And in the end, it is not the years in your life that count. It is the life in your years.” Throughout my 23- year teaching career, it has been my constant endeavour to channelize my students’ life experiences constructively in tandem with academic goals.

Over these years, like many of my colleagues, I too have seen our school transform by several orders of magnitude. When I joined, it was under the able leadership of the Duncan Group, and since 2005, it is treading the path shown by the dynamic vision of the Goradias. The fact that our school has not just survived over time, but in fact thrived, is a true testament of the ability of the Management and speaks volumes about every employee and student who has upheld its name.

By the early 2000s, I was given the much-awaited opportunity to teach Geography in Middle and Senior School. It has been a colourful joyride since then, with multiple roles and assignments coming my way. I still have fond memories of an educational field trip to Europe in 2009, courtesy our school management, where I was tasked with taking 16 students along. As a person deeply concerned about the state of our environment both in personal and professional life, I was deeply humbled to be picked in order to be a small part of initiatives like **forming the School Eco Club in 2007**, and a plethora of activities every year on events like the **Earth Day** and the **Environment week** celebrations. The fact that all these activities and initiatives have born fruition (in the form of the **Green School Award** for the school on one particular year), is by no means my individual achievement, but a collective one – to be credited to every person involved.

Since 2020, with the onslaught of COVID19, there has been a paradigm shift in education and in the way we interact with our students. It is in times like these that an institution’s grit is truly tested – and I firmly opine that our school has lived up to it. The Management has been as vigilant as ever and always accessible to every person in the school with guidance whenever needed. The teachers and the students have adapted with admirable fluidity to Video calls and Online Whiteboards that the entire education sector across the world was forced to move to.

As I look back over my past 23 years of teaching innumerable students, I realize that maybe I was the one who learnt the most. Every mention of the Indian School has always evoked a warmth in my heart the way only a second home can.

I’ll miss this when it’s over. And I’ll continue to wait for chalk to make a comeback.

Citizenship Program

Albert Einstein once said, "All that is valuable in human society depends upon the opportunity for development accorded by the individual."

The Citizenship Programme at The Indian School offers students an opportunity to unleash their inner potential and achieve overall development. In this day and age, competition has increased to such an extent that the young generation often neglects life skills.

This Citizenship Programme endeavours to train students to make a difference to society by becoming responsible citizens. It attempts to build better citizens by generating awareness about rights and responsibilities. It also seeks to address adolescent/pre-adolescent challenges, foster life skills, and engender sensitivity to social issues.

The coronavirus pandemic has shown that the Indianite Citizenship Programme will never lose its relevance. Citizenship is the need of the hour as people feel lonely, unproductive and unsure. These trying times have left people feeling hopeless and uncertain about the future. Adolescents and adults alike must acquire life skills to cope with the increased emotional and financial burden. We, at the Citizenship Programme, aim to do just that.

Students engage in Shramdaan that teaches them the importance of labour and skill development. The lockdown period has inculcated a sense of insecurity among people in regard to their jobs. Students learn that conventional jobs are not the only jobs to make a difference. It is not enough to give hand out donations, but also to make the time and effort to alleviate the lives of others.

The Covid-19 scenario has not hindered this cause in any way, and students and teachers continue to be productive. They have undertaken several activities, such as gardening, to improve the environment for the present and future generations.

Students have also been encouraged to play indoor games and spend more time with the family instead of resorting to gadgets to spend their leisure.

What is crucial is that we must not forget the lessons of gratitude we have learned during the pandemic and must continue to work towards being responsible future leaders of the world.

Akshita Panwar, XII-D,
Senior Citizenship Captain

CITIZENSHIP PROGRAM

Nowadays, the world is facing the biggest challenge of coping with the pandemic. Schools and markets are closed, public transportation is not scarce, dad and mom are working from home, and also doing all the housework!

Given the current circumstances, the most relevant topic in the Citizenship Programme is caring for myself and caring for others. The programme has helped create awareness amongst students through online workshops.

We have been educating students to maintain personal hygiene by frequently washing their hands with soap, wearing masks, and not stepping out of their homes. In this manner, we do our bit to prevent the spread of the virus.

The Citizenship Programme helps students appreciate the importance of online classes and respecting their teachers. This programme imparts life skills that help students cope with any situation that life throws up. Students are encouraged to maintain physical and emotional well being by regularly exercising at home, since going out to play is not an option presently.

The Citizenship Programme has only grown during the lockdown period because every one of us needs citizenship values to tide through the tough times.

We are grateful to our School for helping us become strong and responsible citizens of our country.

Aanya Kumar, class 5A
Junior Citizenship Captain

EXPERIENTIAL LEARNING

Adventure in the lap of nature!

Summer excursion to Camp Viratkhai, Chakrata for classes 9-11

Fun, Frolic and Fitness in the hills!

Summer excursion to Ranikhet for classes 6-8

A peek through history to unravel its mystery!

Excursion to the National Museum by the students of class 6

A Wander through the Wonders of the World!

Excursion to 'Waste to Wonder Park' by the students of classes 2 and 7

Nurturing the Nature! Excursion to the School Eco Park by the students of Class 7 and Class 9

A chat with some colourful wings of nature!

Excursion to Butterfly Garden (Lodhi Garden) by the students of class 7 during Environment Week

Let's be keen to clean!

Excursion to the Yamuna banks by the students of Middle School

Aim for the moon and you might land among the stars!

Excursion to Nehru Planetarium by the students of class 8

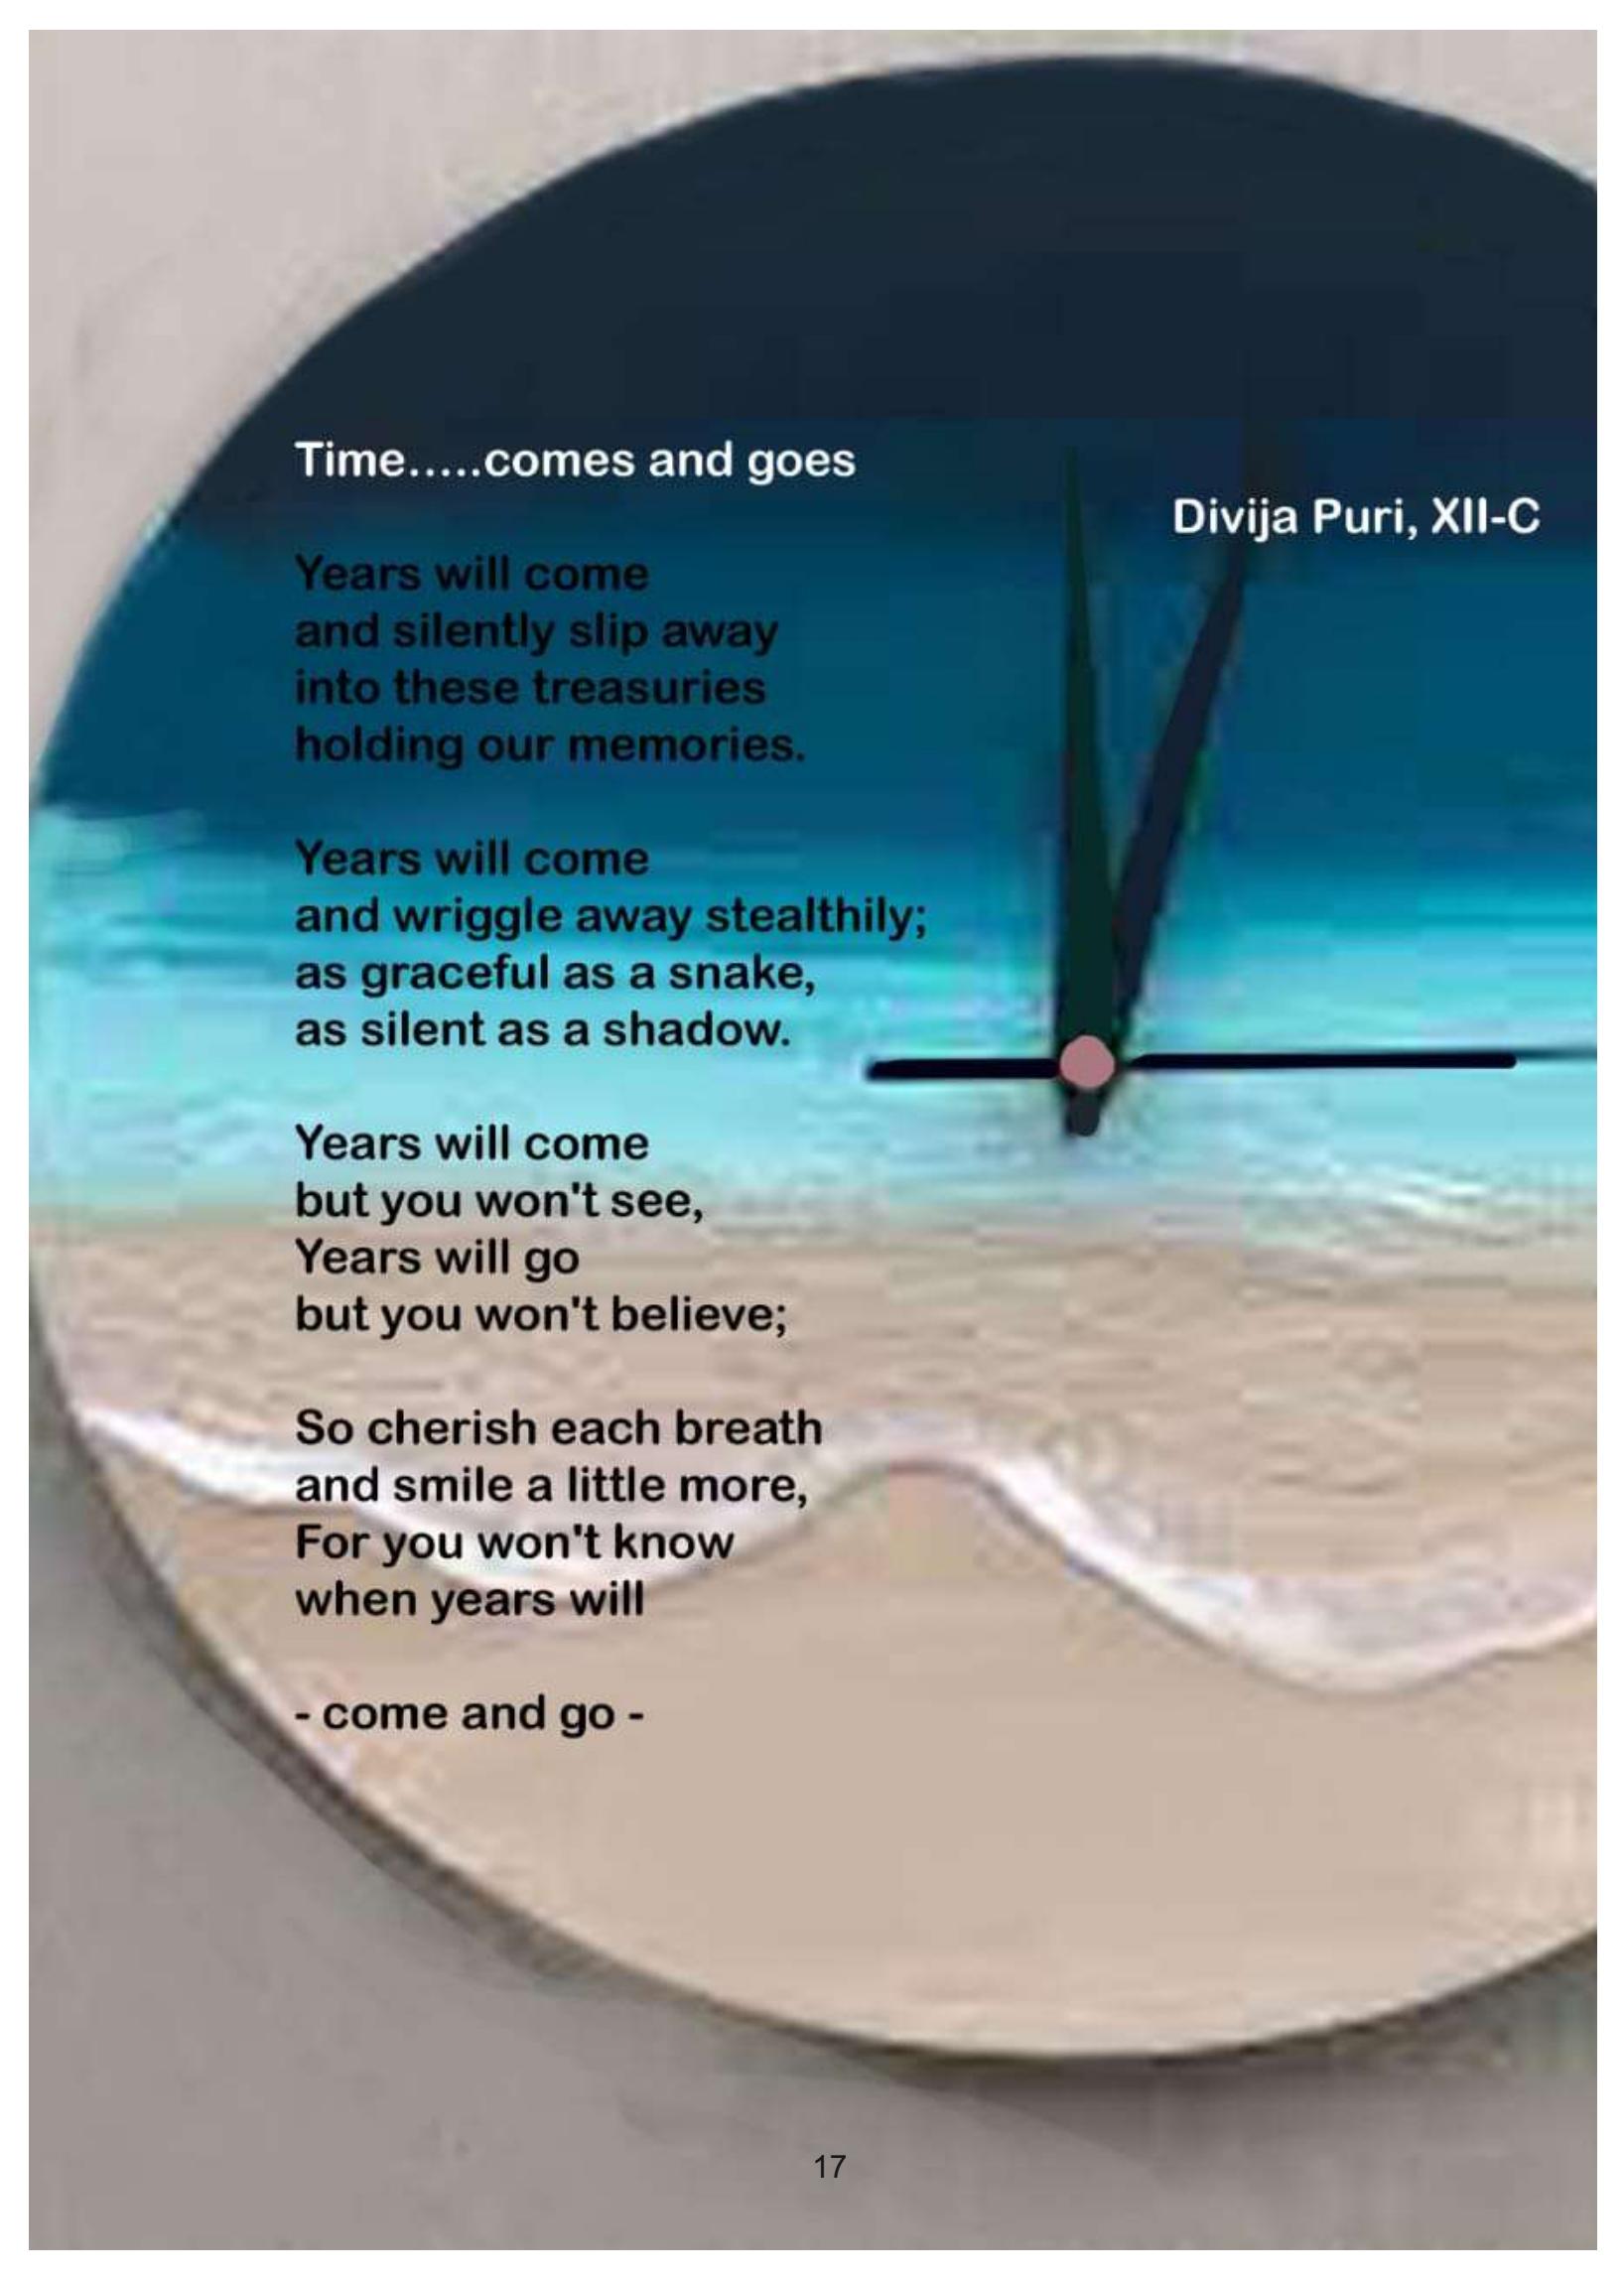

A walk to independence!

Excursion to Teen Murti Museum by the students of classes 6 and 8

Time.....comes and goes

Divija Puri, XII-C

Years will come
and silently slip away
into these treasures
holding our memories.

Years will come
and wriggle away stealthily;
as graceful as a snake,
as silent as a shadow.

Years will come
but you won't see,
Years will go
but you won't believe;

So cherish each breath
and smile a little more,
For you won't know
when years will

- come and go -

If I had a Magic Wand.... -5 Jan 2021

by Aarav Bansal 6E

If you want to know about my magic wand, read on.....

It all started last December when my tooth broke. I wrapped it in a piece of tissue and placed it beneath my pillow. The next morning when I woke up, I could feel something under my pillow, something BIG. It was a magic wand! It had a star on it. Along with it lay a note that read, 'Shake the wand and you will be granted three wishes. But be careful about what you wish for!'

I immediately began thinking about what to wish for. First, I made a wish that there would be no exams. My second wish was unlimited holidays. Lastly, I wished I could play board games with my family.

Three months later, all my wishes came true!

Due to the COVID-19 pandemic, term-end exams were cancelled. Schools closed abruptly! During the lockdown, I could play plenty of board games!

I didn't even notice that a month had passed. I was having so much fun. But these past few months, I have been missing my friends at school. Now, I understood what the note meant by 'be careful what you wish for.' I now regret wishing for all these things.

Alas, I have exhausted my three wishes. If only, I could wish for the end of COVID-19! I would if I could. Meanwhile, all I can do is to stay indoors and stay safe and healthy.

PEACE

When we smile instead of cry,
When we have achieved our dream to
fly,
When we look beyond me and my,
When we are chasing the golden fly,
soaring high -
That is when we know we are living in
peace.

When we overlook mistakes,
When we see snowflakes,
When we drive without brakes,
When we dance on the rattle of the
snakes-
That is when we know we are living in
peace.

When our happiness and joy breed,
When 'us' is our only need,
When brotherhood is all we bleed,
When caring becomes our only deed-
That is when we know we are living in
peace.

When we swim past the sea,
When our terrors from us flee,
When we have make the leap,
Only then I will we truly be free,
That is when we know we are living in
peace.

When we smile instead of cry,
When we have achieved our dream to
fly,
When we look beyond me and my,
When we are chasing the golden fly,
soaring high-

That is when we know we are living in
peace.

When we overlook those mistakes,
When we see snowflakes,
When we drive without brakes,
When we dance on the rattle of the
snakes-
That is when we know we are living in
peace.

When our happiness and joy breed,
When 'us' is our only need,
When brotherhood is all we bleed,
When caring becomes our only deed-
That is when we know we are living in
peace.

When we swim past the sea,
When our terrors from us flee,
When we make the leap,
Only then will we truly be free,
That is when we know we are living in
peace.

Symphony of the Golden Bird

Arrived from the West a hungry beast,
Silently devouring the welcoming East.
His friendly scarf coiled into a vicious snake,
As the Golden Bird sank into the lake.

Thus came the clarion call in demand for Swaraj,
Hearts no longer beat under the drum of = “the English Maharaj”.
Mill-made clothes were made to burn to ashes in a bonfire,
Determined in defiance, Khadi was worn to funeral pyres.

The valiant bird struggled to take flight,
Still, she spread her wings and swore to fight.
Freedom was her inalienable right,
She strove for it with all her might.

Beware of history repeating itself,
lest the beast toys anew with oneself.
No! The Golden Bird no more cries,
She soars high in the deep blue skies.

The bird that chirps every morning,
now thunders with warning-
“Do not let our ancestor’s efforts waste,
it enjoins us to blaze our haste.”

Saffron banners mark pride in joyous victory,
Embracing a glorious past and history.
The spirit of patriotism is high,
As the resurgent bird finds freedom in the open sky.

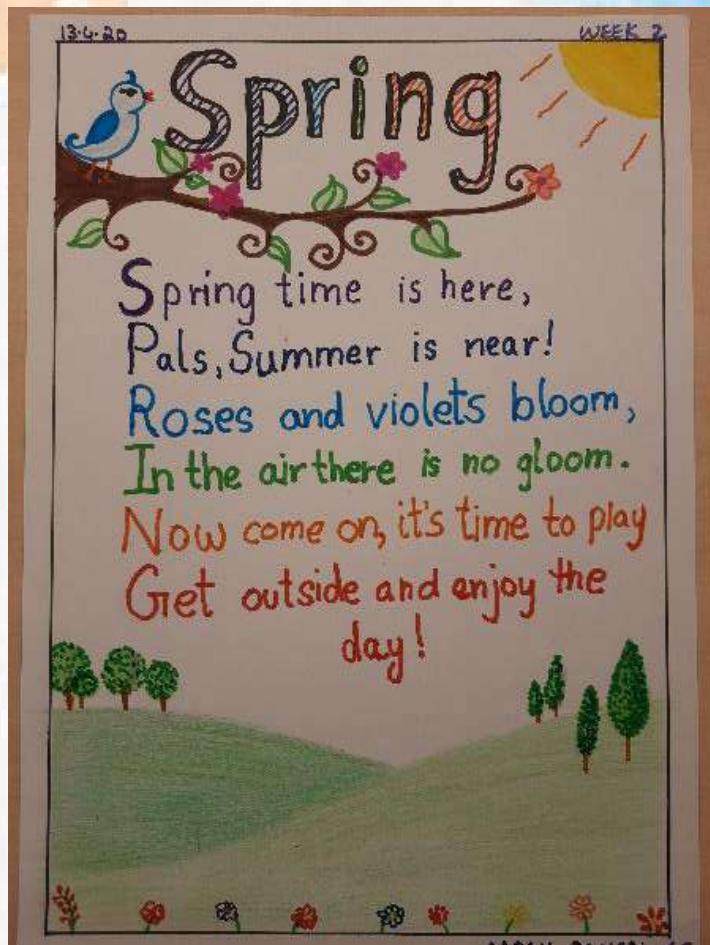

[By Shruti Arora, XID]

Acrostic Poem on Spring

Soothing breeze pleasantly blows
Pulling me outdoors
Rounds of birds chirping in the skies
Imagine how colourful the butterflies
Nectar in the swarm of bees
Guitarists playing their melodies.

Chaitanya Jain 6 E

Spring

Spring time is here,
Pals, summer is near.
Roses and violets bloom,
In the air, there is no gloom.
Now come on, it's time to play,
Get outside and enjoy the day.

Aarav Bansal 6E

SPRING

ACROSTIC POEM ON SPRING

Springing flowers everywhere
Pleasant fragrance here and there
RI** can feel the freshness in air
Nature blooming with love and care
Giving a feeling that "spring" is here.**

VIDISHA PADHI - VI - E

Springing flowers everywhere
Pleasant fragrance here and there
Rain and thunder feel so fair
I can feel the freshness in the air
Nature's blooming with love and care
Giving a feeling that "Spring" is here.

My Worst Nightmare

One pleasant Saturday evening, my friends and I decided to go for a picnic in a nearby forested area. I and four others packed some camping gear into the back of the car and set out merrily. All of us had a song on our lips and adventure on our minds.

Adventure came sooner than expected. On the way, our car broke down! We tried to find someone who could help us fix it. But, there was nobody. Soon, we entered the forest. It was getting dark. The forest looked eerie.

A few meters inside the forest, one of my friends froze on the spot. I bumped into him from the back and almost fell. On being asked what had happened, one of them pointed to the bushes and said that they had spotted movement there. We peered into the thicket but could see nothing. Not a leaf moved, nor did a twig snap.

We continued our foray into the stillness of the night. The dark sky hovered ominously above us. Suddenly, there was thunder and lightning. A heavy downpour descended on us. Now our new goal was to find shelter as well as help.

After a while, we stumbled upon an old, derelict house. Knocking on the door, I could sense impending danger. Nobody answered. We pushed at the door, and it opened. We entered.

Once inside, my friend asked me if I was scared. I parted my lips to answer him, but no sound emerged from my fear-stricken mouth. It looked as if the cat had got my tongue. My stomach turned to ice. My heart skipped a beat on hearing the door shut with a soft thud behind us.

I glanced my friends as if to ask who had done that. We looked at one another in petrified silence. No one said a word, silently nodding their heads in a no. We realised that it was not one of us.

We were now filled with fear. We tried to open the door with all our strength but, it refused to budge. We looked around for something heavy to break it open with. There was firewood in the fireplace. We picked up a big log and hit it against the door with all our might. After a lot of effort, the door finally fell open. We fell out of the door like a stack and made a dash to our waiting car. We huddled together inside it through the night, waiting for help.

As dawn broke help arrived in the guise of two forest rangers. The forest department had received frantic calls from our worried parents. The rangers helped us get our car back on the road. Thanking them profusely, we followed their jeep out of the forest.

We drove straight home and into the welcoming arms of our anxious parents. It's been two months since the adventure, but it still gives me goosebumps.

I have crossed that forest several times since, but nothing appears odd or out of place. The forest is as thick as green, and as serene as it always has been. So much so that I am forced to ask myself - was it a dream?

by Aarav Mudhaliyar 8 E

My idea of a happy life -05 Jan 2020

My idea of a happy life is to live it fully and to keep learning new things. As someone once said, "When life serves you a lemon, make lemonade".

Life is unpredictable. One will encounter difficulties and circumstances which can cause one to lose hope. My advice I would be to accept the circumstances and tell yourself not to start afresh, filled with new determination to succeed. Promise yourself that you will never give up or surrender to adversity, at any cost.

We have to travel through many trials and tribulations in life. There will be situations when nobody will be on your side, ones where you will feel alone and without support. If you think that you are in the right and believe in yourself, you will win. Everyone will eventually support you if you are on the right path. You will overcome all your hurdles and obstacles with your deep belief.

Some people find happiness in things like money, gifts, big houses, food etcetera. These bring temporary pleasure. One can never be satisfied with temporal things.

For me, happiness lies in spending time with my family and friends. The key to achieving a state of bliss and receiving love from those we cherish, lies in being patient, supportive, and kind to them. We should demonstrate all of these virtues in our myriad relationships. We should treat everyone equally. We should treat our loved ones with care and attention.

We cannot compare our lives with that of others. One should be glad about what one has and not desire more or complain about receiving less. Who knows what life has in store for us? Perhaps, what we receive in the future will be far more or better than what others have.

Patience is the key to success, and here, success means being happy and content. We must strive to live our lives better. We must not complain about what we don't have. An optimistic person is the best example of a person who wishes happiness and is filled with hope and positivity. Such people work hard towards achieving their goal of joyous living.

We must aim for a higher purpose. We should strive to bring changes for the better not only in our lives but also in the lives of those who need our help, especially the poor. As a part of a privileged group, we must show empathy, sharing and help others live in peace and harmony.

by Falak Rahi IX C

The Flow of Time

I closed my eyes
It was all quiet

Sheer silence all around
Just the alluring presence made it look so heavenly.
The rufescent rose shed its petals, one by one.
The water secretly flowing
Serene,

A snake slithered hastily around the corner
It too looked concealed
But it was only virtual

I then opened my eyes to see the world change
From dark to light, and it all started again,
but this time the very opposite.

The once red rose died, lost its' charm, it's colour
The silent water seethed with rage as if whipping a tsunami,
The snake, venomous indeed; bit the animal
around it,

It was the game of time.
Time seized me and everyone around,
For once, I felt my imagination come true, and then,
All of a sudden, reality returned,

Quite dreadful; I saw it all happen again.
Things that changed it once again took control of life;
And took control of life;
And took control of us!
A word so small, but with meaning so profound...
Time!

by Avreen Kaur, XII-C

Silk Road

The sun glowed behind faint pink clouds,
Casting a warm blanket on the hills.
The lonely mountains awaited their travellers,
As snow crystallised on window sills.

I had a journey to make,
To complete ancient lore.
I wove my way through castles of rock,
Until I could breathe no more.

Cold filled my lungs,
Beckoning me to stop.
I came upon a remedy,
And continued my pilgrimage to the top.

Reaching a cold and desolate place,
My hopes plummeted fast.
But as I looked into the distance,
I knew I would make it, at last.

by Aarushi Menon XI D

FOREST TO THE ZOO

An antelope's antlers are an absolute allure, A babbling band of baboons beside the oar, A Caribou Cajoling a cardinal bird,

Daisy duck dubiously daydreamed.

Exactly at the edge of earnestness,

fell farmer Fanny's frisky fox in his fancy fortress. A galloping goat gusting through the Gir,

Hassling a Hoopoe with a Hazel Headband.

Inhabiting the isle of Ireland,

A jaded jaguar spoke just in jest, Kidnapped king Kakapo,

And lay lavishly leaning onto his limping leg.

Malu, the monkey, mastered math unaware of Moore's law, Neglecting the Neanderthal, who knew it all.

Objectifying the obliging Orangutan, Paraded the personable pademelon.

A Quetzal in Quanzhou, Rationalising the route to the roof,

Stood still seeing the songbird scatter the snow.

Today tansy, tomorrow a terra firma of tomatoes.

Under the ugliness of the uber umbrella, A vicious viper vacated the villa.

Waltzing through the window came Wonka wheedling his wailing.

Xeroxing the Xanthium for the Xmas xylophone chocolates, Yodeling not being the only yardstick in Yverdon-Les-Bains.

Zesting through Ziegler street there was no sign of Zeaxanthin

But he found the Zoo.

By Shruti Arora 11-D

Thoughtful Pandemic

How do we get out of this maze?
When is the much awaited release?
When will this pandemic end?
Get its vaccine, soon please!"

This is what we all say,
Without realising how it has changed every day.
With a heart full of hatred for this pandemic,
We failed to realise, it gave us the environment for which we used to pray.

Just like a piece of the universe, I fell on this land.
Not in the arms of any trunk, neither a piece of sand,
But only like a human uncursed,
Now I do believe in nature's magic, without a Potter's wand
These days, many stars greet me at night.
Stargazing, reflecting in my eyes so bright.
While I talk to the moon about my fears and secrets.
The feeling of stardust mixes with my soul every night.

More often, ripples of rain, I see
and chilled air runs through my face so delightful and free.
More often, the heart alleviates its agony.
Rain proves that soul and earth make the best "WE".

Yesterday, I said 'Hello' to the double rainbow, so blissful.
After years, I greeted something so colourful.
Made me wonder that Earth is beautifully dreamy.
Maybe, unicorns do fly and fairies lie within every individual.

Every day, birds chirp to wake me up with their song
I count more days where beats of rain keep me swinging.
So, I'd love to pause and thank nature.
Thank you nature, I'm grateful for everything.

The lesson I received from Earth all along
Is that, nature is so beautiful and strong.
From the midst of demolishing to healing now
I am surely learning so much from the land to which I belong

This is to everyone breathing here.
Let's believe that we are not stuck in a labyrinth that we need to be released.
Let's believe that we're quarantined under the same beautiful stars, in a beautiful environment.
Let's just ask the energies "What did we do to deserve all this?"

By Khushi Gaba, XII-C

A CRY FOR HELP

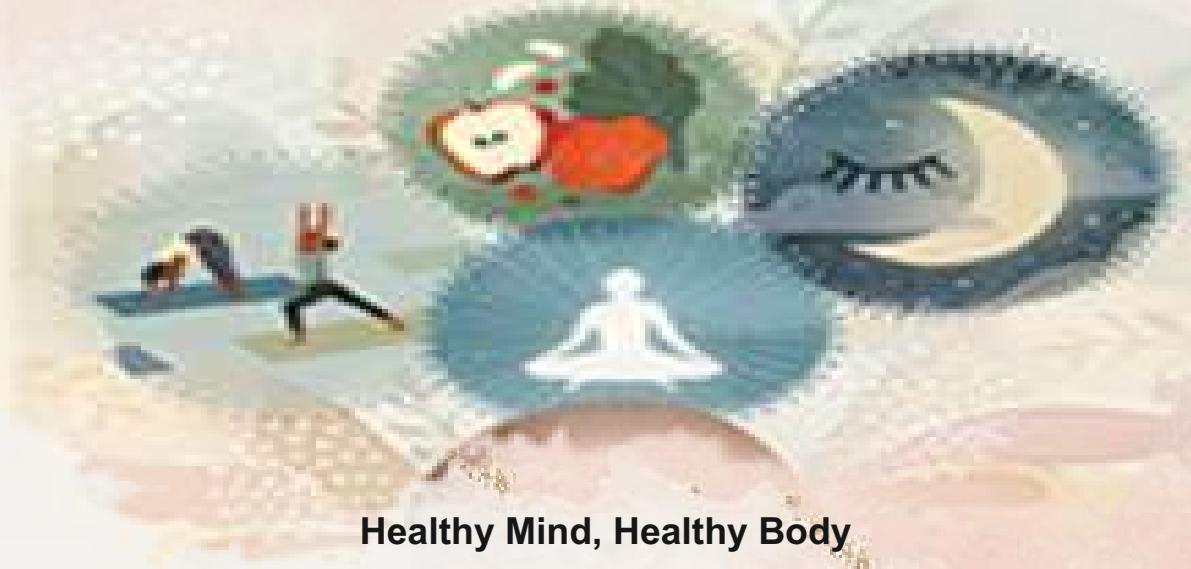

The world is changing, and it's not changing for good. Gone are the days when you could go out and fall in love with the beauty of nature. No longer can you embrace the cool breeze that brought comfort with itself or be soothed by the melodies of the chirping birds.

The world outside is dark now. It won't take you in its arms and save you from all the trouble that you have caused it. Mother Nature will not act motherly anymore, because you have proved to be the prodigal child. She won't accept this child now. She will fight back. She will retaliate. For you have done her no good. You betrayed her. You misused her. You ill-treated her terribly. Now it's time for you to clean up her wounds, make her feel better, and love her unconditionally. Let her sleep, let her rest, for when she wakes, she will shake the world.

The paranormality of the poems I scribbled on the walls of my bedroom when I was thirteen (still reek of ink), my first piece of art on the ground, and a box of unopened watercolours lying next to it. I vividly remember they are still unused- the intoxication of this place called home. Scary.

The short and stout ten-year-old staring back at me, through horn-rimmed spectacles, riding a pink bicycle, not a word exchanged, yet a thousand thoughts exchanged. No, the kid was not unknown, he is the ghost of my past. I didn't find a home in the lonely, dusty streets or under their bright lights. For me home lay within.

BY GUNJAN ANAND, XII-C

Healthy Mind, Healthy Body

This is the story of a kid
During the times of Covid.
At home he was stuck,
He felt out of luck.

Then said his mom and dad,
“Don’t be sad our little lad.”
There is no time to sit,
We have to get our mind and body fit.

A diet of veggies and fruits
Will give you strong roots.
Playing games in the sun isn’t wrong,
The Vitamin D will make your bones strong.

Keep healthy and fit by doing exercise,
Don’t inflate your tummy with burgers and fries.
Give up on the Soda,
And begin with some yoga.

And once we start to meditate,
We will never need to medicate.
Be sure to get up early,
And do it regularly.

Do not watch too much television,
As it may affect your vision.
Be sure to sleep by nine,
The next morning you will feel divine.

Keep these tips in mind,
And leave your negative thoughts behind.
When the lockdown ends you will find,
A Healthy Body and a Healthy Mind.

My Neighbours-My extended family- 05 Jan 2021

Neighbours are the ones who are always there in the good times and the bad. They live close to us and are often the first point of contact.

My neighbour's name is Mrs Madhu Bajpai. She is an elderly lady who loves to knit and cook new dishes. She lives with her son and daughter in law. Her grand daughter, Dhwani is a year older than me and we love to play, sing, dance and also share our toys with each other.

Dhwani's mother is a teacher by profession and she and my mother spend a lot of time together. We often go to each other's homes and also share food. We invite each other home on special occasion like birthdays, anniversaries etc. Dhwani and her family are very helpful and welcoming people and our families share a nice bond.

My memorable outing with my family

My memorable outing with my family was my visit to India Gate. A big thank you to my mom and dad for organising this wonderful trip. We had lots of fun there. We bought balloons. My sister and I drove a toy car and enjoyed the ride. We also did a round of boating there. We had an ice-cream as well. Last but not the least, we enjoyed our favourite packed snack prepared by Grandma.

MEHAR ARORA 1 B

MY VISIT TO A CARNIVAL

Last year, I went to a Diwali carnival with my family. There were many joy rides, but I chose the camel ride.
I also watched an exciting magic show. There was a funny joker.
Finally, we ate pizza, pasta, popcorn, and burgers.
Oh! What an enjoyable day it was.

By ARNAV AGGARWAL 1E

My Neighbours ~ my extended family- 05 Jan 2021

Family is not always blood.
Neighbours are my extended family.

In sorrow or in joy,
in rain or in sunshine,
our neighbours are the first ones to
reach out and share.
Together we cry,
together we laugh. Together we play,
together we celebrate. Together we pray
and make this life a beautiful place.

RAJVEER SINGH 1-C

A family that eats together prays together and stays together

FAMILY, the word itself evokes love inside us. Family is our greatest source of happiness and also gives us strength to take on challenges in life. Eating together and praying together are two main things that we can do without trying too hard. And this in turn boosts the family bond. There are many benefits of eating and praying together. Eating together boosts healthier food choices, gives time for everybody to connect about how the day went, lowers stress and is economical as well.

Praying together calms people and it is proven to keep families happy and provide a peaceful environment for everyone. There is a saying that, "A world at prayer is a world at peace". So, Eat Together, Pray Together and Stay Together.

"TO HAVE A GOOD NEIGHBOUR IS ONE OF THE LIFE'S RICHEST JOYS"

MY NEIGHBOUR- MY EXTENDED FAMILY

Not long ago, we moved into a new neighbourhood. I wasn't very comfortable talking to our new neighbours in the initial few days. One day I was waiting for my school van to come in the morning at the main entrance. That is when the next-door aunty stopped by and asked my name.

I remember I was a bit shy to tell her my name. But when my mom insisted, I replied after a moment's hesitation. "Nice name. Kushaan," she repeated in delight.

Next, when she asked about the meaning of my name, I answered quite confidently: "Aunty, it means clever and intelligent."

This is how we started talking, often while going in and out of our house. Very soon, I became friends with Didi (their daughter) too. All of us went to the zoo together once and had a great time.

Aunty's family is a very sweet and helpful. Both my parents are working and thus there is no one at home to receive our important couriers, to take delivery of our groceries etc. Mostly it is our neighbour who hands over all these deliveries when my parents come back home in the evening.

We generally visit each other's homes at important family functions. We also celebrate festivals with each other in great enthusiasm.

Good neighbours like ours are truly a blessing!

KUSHAAN BIJLANI 1-C

My memorable outing with my family- 05 Jan 2021

Last year, I went to the Andaman Islands with my family. It was my first time at a beach. The sea water was blue and beautiful. We played in the waves and splashed water on each other.

We built a sand castle and also collected seashells on the shore. We took a ride in a glass boat and saw the coral reef and the beautiful coloured fish below.

At sunset, it looked like the sun was slipping into the sea. The whole experience was awesome. It was the best time of my life.

Aarav Dhiman

I B

"THE DAY I COULD FLY

If I could fly, I'd fly with my favourite Superman.

I would go up high in the sky and see the beautiful mountains.

If I could fly I would feel the warm sun, go close to the moon and see the pretty birds.

I would take some colours and paint the clouds the colour I love.

If I could fly, I'd go visit all my friends and take them for a ride too.

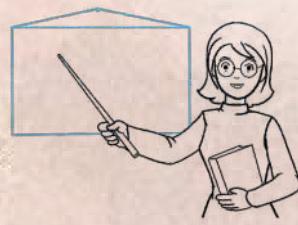

I'd go see my school and my teachers who I am missing very much.

But it's just a wish and if my wish came true.

I would fly up above and take my family too.

ISH JADWANI
II A

"If I were a Teacher"

My dream is to become a teacher.

If I become a teacher, I would like to teach math as it is my favourite subject. I would make learning fun for my students and teach them to share their ideas and feelings.

I would pay equal attention to all my students. I would teach them to do things on their own. I would also teach them good values like love and respect.

If I become a teacher, I will spread the message of peace and harmony.

By Dhwani Sadani (1C)

GLAD TO BE IN CLASS I

I am happy that I am in class 1. I feel I am a big girl now. These days, I do not go to school due to the Corona virus. I am happy that my class teacher, Ms Jaspreet, is pleasant. I learn new things in my craft and drawing classes. I love my school very much.

AAGYA SAXENA (1-D)

IF I WERE A BIRD

If I were a bird, I would love to Spread my wings and keep flying Whole day up in the sky.

If I were a bird, I would come down And pop all the balloons with my Pointed beak and hide myself up in The trees so that I don't get caught by My mumma.

If I were a bird, I would fly around The town and visit all my friends in A single day.

If I were a bird, I would be able to Touch the clouds, rainbow and all The colourful kites.

If I were a bird, I would sit on the World's largest tree and I would see Everyone and say bye-bye from the Top.

Reet Sapra-I A

I turned the challenge into an opportunity when....

"Success is not final; failure is not fatal: It is the courage to continue that counts."

Success comes about when we carry out our decisions wisely. Well-planned and considered steps lead us to the kind of success we often dream about. Come what may, we must tackle the stumbling blocks that are a part of life.

Whether to approach the obstacle with positivity or to lose an opportunity to stand up and tackle it, is our own choice to make. After all, obstacles and opportunities germinate from the same soil. It's the attitude that makes the difference.

The mind is the engine that propels our thoughts, makes us adopt a positive or negative approach. This hotbed of all thought, not only shapes our personalities, but also fuels our actions.

Challenges crop up regularly in our lifetimes; they come not to overwhelm but on the contrary to inspire us. The resolve and clarity needed to turn around a situation is largely dependent on the choices we make. We can call them hindrances or incentives.

We can do well to remember that "Life does not always give you what you want, but if you look closely you will see that it gives what you need for growth."

Schoolchildren are often required to perform several tasks simultaneously and multi tasking is not everyone's cup of tea. Faced with deadlines, appearing for exams and tests, peer pressure and regular distractions of a teenager can be overwhelming.

Woefully, whilst our teachers try to ingrain time management in us at school, we do not take it seriously nor do we adequately understand that it is vital to differentiate between an urgent matter and an important matter.

I don't mean to confound and confuse my readers with my analysis! All I want is, to share when I am unable to manage my time effectively, I find myself confused... overwhelmed... clueless!

In a nutshell - Time management is my greatest challenge!

A day has only 24 hours, and I am expected to devote most of my waking hours to studying these days. I therefore set about mending my ways. Out goes procrastination and the habit of putting off till tomorrow what can be done today.

I believed that I can win. I hope to become punctual and well-organised. Once I begin managing time by waking up early in the morning to finish my work, I will start feeling good about myself. I must brush off all kinds of negativity, comments and distractions that can demotivate me.

Desire, dedication, and determination can lead to wonders in life. The subconscious of successful people rejects beliefs like, 'no' or 'never'.

I have decided to make myself aware of my failings. I choose to pray and meditate instead of letting negativity affect me. Fortunately, my family supports and motivates me all along.

By believing that I can do it, I commit myself to managing my time and thus achieving my objective. I have decided not to slacken or give in to the temptation to surrender. Training my mind helps me set a goal. I realise that it is simply a matter of perspective. Some people look at a glass of water half-empty while some others see it half-full.

"Yesterday wasn't ours to recover, but tomorrow is ours to win or lose."

I opt to concentrate on tomorrow instead of yesterday and encourage myself to accomplish my target. To remain positive is important for progress. Negativity is very contagious.

We all get to decide how we play out and the thoughts that we discipline our minds about each day. Hence, believing in oneself is the key to success.

One must learn to keep one's spirits high because a weak spirit will keep us back. Self-esteem and confidence go hand in hand.

In retrospect, I realise that giving up will leave me feeling sorry for myself; whereas hard work, focus and discipline with dollops of optimism will enable me to achieve my goal.

Surely, I go with the adage that,

"A pessimist sees the difficulty in every opportunity; An optimist sees the opportunity in every difficulty."

French

AIME TOI, PARLE TOI-MÊME

Par: Surveen Kaur

Parfois, de bonnes choses arrivent, de mauvaises choses arrivent, des choses inattendues dans la vie se produisent, mais nous devons nous rappeler que ce n'est jamais de notre faute.

La vie est imprévisible. À cause de Covid-19, la vie est devenue terne, peut-être pour la première fois. C'était un moment précieux, indésirable mais bienvenu. J'ai vu un monde entier rétrécir en un instant, c'est devenu plus difficile à imaginer. C'était une époque où tout le monde voulait abandonner, mais c'est le moment où il faut croire en soi et crier encore plus fort: «Et alors? Si j'abandonne ici, alors je ne suis pas la star de ma vie." Ne soyez pas pris au piège du rêve de quelqu'un d'autre. Si vous pensez que vous allez vous écraser, appuyez plus fort sur la pédale. Le véritable amour commence d'abord par m'aimer moi-même, croire en moi. Continuez votre chemin, même si vous vivez un jour. Faire quelque chose. Mettez de côté votre faiblesse.

Les gens commencent à s'inquiéter de ce que les autres pensent d'eux et commencent à se voir à travers leurs yeux. Ils essaient de se coincer dans des moules fabriqués par d'autres personnes. Bientôt, ils commencent à fermer leur propre voix et à écouter la voix des autres.

Mais tout ce que nous devons faire est de nous faire confiance, de faire de notre mieux et d'aimer ce que nous faisons.

Penser à l'avenir et faire de gros efforts sont tous importants. Mais le plus important est de vous chérir, de vous encourager et de vous garder heureux. Dans un monde d'incertitude, nous devons chérir l'importance du «moi», du «vous» et du «nous». Tel est le message dans les paroles de la chanson Dynamite: "I'm diamond, you know I glow up". Je suis sûr que moi et nous continuerons de trébucher et de tomber, mais nous devons réaliser que la voix à l'intérieur de nous change qui dit: «Réveillez-vous, mec, et écoutez-vous».

Nous devons essayer nous aime et d'imaginer l'avenir. Notre lendemain peut être sombre, douloureux, difficile. Ces défauts et erreurs constituent les étoiles les plus brillantes de la constellation de la vie. Plus que jamais, nous devons essayer de nous souvenir de qui nous sommes et de faire face à qui nous sommes. Kim Namjoon a dit à juste titre: «Les étoiles brillent le plus quand la nuit est la plus sombre.» le plus grand amour que nous recherchons tous est l'amour de soi. Quoi qu'il en soit, grand ou petit, vous êtes vous après tout. Trouvez votre nom, trouvez votre voix en parlant vous-même. Peu importe qui vous êtes, d'où vous venez, votre couleur de peau, votre identité de genre: parle toi-même. J'ai fini par m'aimer pour qui j'étais, qui je suis et qui j'espère devenir.

Inspiré de la campagneTB: 'Love Yourself'

La Nature

La nature est un incroyable lieu,
C'est l'une des choses les plus importantes qui fait notre monde mieu.

Toutes les montagnes, la flore et la faune,
Les beaux papillons jaunes,
Font tous partie de notre énorme nature.

Les splendide spectacle de la nature
Est la raison de le conserver pour notre futur.
Maintenant, les gens détruisent cette
Donc nous devons sauver elle ou nous serons très dettes.
La nature donne les gens beaucoup de choses
Le temps magnifique, la médecine et les jolies fleurs roses
C'est notre nature.

-Bhavya Gupta

L'Or et diamant

Il était une fois, un sentiment frappé par moi
C'était spécial, étrange et pas ressenti pour personne
Ça m'a fait tourner tout autour, j'étais sur le 7ème nuage
L'optimisme et la folie se répandent dans mon corps
J'étais plein de bonheur, de curiosité et de libre
Pouvez-vous imaginer à quel point c'était excitant?
Enfin, un sentiment que j'ai ressenti après des années et des années
Pas pour personne, mais pour quelqu'un
Ce «quelqu'un» m'a donné un mélange d'émotions
Parfois j'ai sauté de bonheur
parfois j'étais plongé dans ses pensées
Quand je me suis levé, je lui ai dit le sentiment
Il a dit que c'était l'amour
Quand je lui ai demandé comment?
Il a dit que l'amour a sa propre façon de se manifester
Il a dit que ce n'était pas un mélange d'émotions,
Mais une émotion qui peut vous garder heureux
Tout comme l'amitié
L'amour est l'or
L'amitié est un diamant
L'amour, une fois fondu, peut être réuni
Mais Diamond, une fois brisé, ne se remet jamais
Nous avons accepté l'amour et avons commencé notre voyage
Maintenant, nous sommes sur la voie du bonheur pour toujours

Un poème de

Rewa Upadhyay 8A

Le Pouvoir de l'Esprit Subconscient

Gautama Buddha a dit à juste titre que l'esprit peut être un bon serviteur aussi bien qu'un maître dangereux. Chaque fois que nous faisons des choses consciemment, notre esprit conscient est en jeu. Mais, c'est cette conscience qui programme notre subconscient. Nous pouvons le comprendre en pensant l'esprit comme un homme avare. Depuis notre esprit conscient consomme quatre-vingt-dix pour cent d'énergie, notre esprit conscient passe à l'esprit subconscient. Donc, nous ne pouvons pas nous concentrer.

Si nous réalisons ou non, que les choses sont enregistrées dans notre subconscient. C'est conscience par ce que nous pensons et comment nous nous parlons. Nous avons vu des gens avoir peur de la scène. Si y a aussi des gens qui peuvent parler en public en toute confiance. La différence est le fonctionnement de l'esprit subconscient. Si nous nous parlons négativement, c'est enregistré par l'esprit subconscient. Puis, nous continuons à ressentir de cette façon.

Donc, discouvre intérieur positive est la clé pour

La Paix Mondiale

“ La paix ne peut être maintenue par la force, elle peut être atteint par la compréhension.” C'était une citation d'Albert Einstein qui est considéré comme un citoyen du monde en raison de ses efforts pour plaider en faveur de la paix mondiale. La citation délivre le message qu'à moins que deux entités ne se comprennent, il ne peut y avoir de la paix. Il y aura des malentendus menant à des frictions, provoquant éventuellement des conflits.

La paix mondiale est une idée de liberté, de paix et de bonheur pour tous. C'est l'idée d'un monde sans violence, où les nations essaient de travailler les unes avec l'autres. La paix mondiale pourrait signifier l'égalité des droits de l'homme, l'éducation pour tous et la disponibilité des divers types d'installations et d'opportunités pour tous. L'idée de la paix mondiale n'est pas nouvelle. Les gens croient et plaident en faveur de la paix mondiale depuis longtemps.

Si la paix mondiale est réalisée, elle stimulerait l'éducation, le commerce et l'industrie. Les pays seraient en mesure de déployer des efforts collectifs vers des objectifs communs tels que la lutte contre le terrorisme, la maîtrise du changement climatique et l'élimination de la pauvreté. Les pays disposant de plus de ressources pourraient contribuer à améliorer l'état de développement de ceux dont les ressources sont moindres. Ainsi, nous serions en mesure d'explorer davantage des principes tels que l'égalité, la fraternité et le développement pour tous.

Atteindre la paix mondiale est très difficile en soi et nous devons faire attention à ce que l'avenir attend.

- Damak Sareena

Hindi

मन के हारे हार है, मन के जीते जीत

यदि हमारे मन में जीत की भावना हो ता हमें जीत अवश्य प्राप्त होगी। यदि हम कोई कार्य करने से पहले ही हार मान लेते हैं तो जीतना हमारे लिए बहुत कठिन हो जाता है। जिस व्यक्ति के मन में विजय का भाव होता है वही अपने सपनों को पूरा कर पाता है। दुनिया की कोई भी ताकत उस व्यक्ति को पराजित नहीं कर पाती। हमें हार के डर से कभी रुकना नहीं चाहिए, हमेशा संघर्ष करते रहना चाहिए ताकि मार्ग में आने वाली कठिनाइयों का धैर्य पूर्वक सामना करते हुए हम विजयी बन सकें। हिंदी के सुप्रसिद्ध कवि श्री हरिवंशराय बच्चन ने अपनी कविता 'अग्नि पथ' में ऐसा ही कुछ भाव व्यक्त किया है—

तू न थकेगा कभी,

तू न थमेगा कभी,

तू न मुड़ेगा कभी,

कर शपथ! कर शपथ! कर शपथ!

अग्नि पथ! अग्नि पथ! अग्नि पथ!

इसके अनुसार हमें किसी भी परिस्थिति में थककर नहीं बैठना चाहिए, न ही कभी रुकना चाहिए और न ही कभी मुड़कर वापस जाना चाहिए। ऐसी शपथ लेकर जीवन पथ पर आगे बढ़ते रहने पर ही हमें जीत हासिल होगी। इतिहास गवाह है कि जब—जब भारतवासियों ने कुछ करने की ठानी है, तब—तब वे ऐसा करने में सफल भी हुए हैं। अंग्रेज़ों से स्वतंत्रता प्राप्त करने के लिए भी हम सबने बहुत संघर्ष किया। परंतु सबके मन में एक विश्वास था कि हम अपनी लड़ाई अवश्य जीतेंगे और इसी विश्वास के कारण हम विजयी हुए। हार और जीत तो केवल मन के मानने या न मानने पर ही निर्भर हैं। व्यक्ति का मन यदि हार स्वीकार न करे तो विपरीत परिस्थितियों का सामना करने पर भी पह विजय अवश्य प्राप्त करता है। मन के संकल्प और दृढ़ता से सब कुछ मुमकिन है और जीत तो निश्चित ही मुमकिन है।

विज्ञापनों का जादू

'विज्ञापन' शब्द का अर्थ सार्वजनिक सूचना या सार्वजनिक घोषणा करना होता है। यह विविध उत्पादों तथा सेवाओं के प्रचार का ऐसा साधन है जो उपभोक्ताओं को अपनी ओर आकर्षित करता है। इसी के माध्यम से विज्ञापित वस्तुएँ अपनी श्रेष्ठता तथा उपयोगिता सिद्ध कर उपभोक्ताओं के मन पर ऐसी छाप छोड़ने का प्रयास करती हैं कि वह इनके प्रयोग हेतु मजबूर हो जाता है।

विज्ञापनों का मुख्य उद्देश्य ही उपभोक्ता के मन में कोई विशेष वस्तु खरीदने के लिए रुझान पैदा करना होता है। इसी के माध्यम से उत्पादक अपने उत्पादों के संबंध में विशेष जानकारी लोगों तक पहुँचाते हैं। ग्राहकों के मन में किसी वस्तु विशेष के प्रति विशेष लगाव तथा लंबे समय तक विश्वास बनाए रखने में विज्ञापन अत्यंत सहायक होते हैं।

विज्ञापन अनेक प्रकार के होते हैं— अनुनेय विज्ञापन, सूचनाप्रद विज्ञापन, सांस्थानिक विज्ञापन, औद्योगिक विज्ञापन, वित्तीय विज्ञापन, वर्गीकृत विज्ञापन आदि। विज्ञापनों में श्रृंगारिक भाषा का प्रयोग किया जाता है तथा प्रभावशाली भाषा एवं चित्रों के माध्यम से वस्तु की विशेषताओं का इस प्रकार वर्णन किया जाता है जो उपभोक्ताओं के मन पर छाप छोड़ सके।

आज संसार में विज्ञापनों का अभाव अकल्पनीय है। इसके अभाव में विविध उत्पादों के मध्य प्रतिस्पर्धा समाप्त हो जाएगी तथा उत्पादों की बिक्री पर इसका विपरीत प्रभाव पड़ेगा। विज्ञापनों के इसी महत्त्व को देखते हुए आज विविध कंपनियाँ अपने कुल खर्च में विज्ञापनों का खर्च भी शामिल कर रही हैं और एक बड़ी धनराशि विज्ञापनों पर खर्च कर रही हैं। इस प्रकार विज्ञापन हमारे हमारे जीवन में एक महत्त्वपूर्ण भूमिका निभाते हैं।

गुजर जाएगा

यह जो वक्त है, वह भी गुजर जाएगा,
जिंदा रहने का जो ज़ब्बा है, फिर रंग लाएगा।
चाहे आज मौत चेहरा बदलकर क्यों न आई हो,
फिर आज मानव उसे आँखना दिखाएगा।

गुजर जाएगा गुजर जाएगा

बाज़ार खाली, सड़कें वीरान हैं,
और उससे अधिक इनसान परेषान है।
इस सोच में है कि वह वक्त वापस कब आएगा,
जो फिर उनके चेहरों पर मुस्कराहट लाएगा।

गुजर जाएगा गुजर जाएगा

यह हाल है, सब बेहाल है,
सारी दुनिया में यह बवाल है।
कि यह जो लम्हा है, दो पल में बिखर जाएगा,
विश्वास रख, जो यह पल है वह भी गुजर जाएगा।

गुजर जाएगा गुजर जाएगा

जंग प्रकृति से

संकट है पहाड़—सा, पार करने की चुनौती है,
जंग यह प्रकृति से आसान नहीं होती है।
पेड़ जो काटे हैं, उसका हिसाब तो चुकाओगे,
धरती माँ के क्रोध से, अब नहीं बच पाओगे।
कसूर हमारा है और प्रकृति का क्रोध,
इतनी लाशें देखने के बाद हुआ है बोध।

हौसला तब भी था और अब भी है,
जीत का ज़ज्बा तब भी था और अब भी है,
बस आज थोड़े लाचार से हो गए हैं,
प्रकृति के आगे बेबस से हो गए हैं।

हम उठ खड़े होंगे, यह हमारा प्रण है,
उम्मीद कायम रखना इनसान का गुण है।
अतीत में भी हमने यह कर दिखाया है,
हर समस्या से पार पाया है।

जीत जाएँगे यह जंग हम आज नहीं तो कल,
हर चुनौती से हमारा संकल्प हो रहा है प्रबल।

शालीन आदित्य मिश्रा
दसवीं – अ

हार से हार मत मानो तुम

हारने से क्यों डरते हो तुम,

हार से हार मत मानो तुम,

जीवन में कुछ करना है हासिल,

तो हार को गले लगाओ तुम।

असफलता सफलता की सीढ़ी है

गिरकर संभलना ही तो ज़िंदगी है,

आँसू तो केवल एक मजबूरी है,

ये आँसू कभी न बहाओ तुम,

हार से हार मत मानो तुम।

हार का कारण पहचानो तुम,

बहाने अधिक न बनाओ तुम,

किस्मत और समय को देकर दोष,

नकारात्मक विचार मत लाओ तुम।

हार से हार मत मानो तुम।

हारना तो केवल एक ठोकर है,

ठोकर खाकर उठ जाओ तुम

गलतियों से कुछ सीखो अपनी,

गलती को मत दोहराओ तुम।

हार से हार मत मानो तुम।

हार को जीत में बदलना हो,

तो दृढ़निष्ठय दिखलाओ तुम,

समुद्र की लहरों की भाँति,

निर्मल बहते जाओ तुम।

हार से हार मत मानो तुम।

रितिका थंडानी

दसवीं – अ

जो समय को नष्ट करता है, समय उसे नष्ट कर देता है

आदि काल से ही यह माना जाता है कि जो लोग समय को नष्ट करते हैं समय उन्हें नष्ट कर देता है। यह कहावत हर काल में सार्थक है इसलिए हमें समय को सदा अच्छे कामों में ही लगाना चाहिए। यदि धन नष्ट हो जाए तो उसे पुनः प्राप्त करना संभव है, मान-सम्मान किसी कारणवश न रहे तो उसे भी प्रयत्न करके पुनः प्राप्त किया जा सकता है, लेकिन समय को दोबारा प्राप्त करना असंभव है।

समय बड़ा बलवान है वह हर किसी के भाग्य को बदलने की शक्ति रखता है हमें समय का सदैव सदुपयोग ही करना चाहिए। समय सफलता की कुंजी है। समय भागता है और हमें उसके साथ भागना है, जो आदमी समय के साथ कदम से कदम नहीं मिला पाता वह जिंदगी की दौड़ में पीछे रह जाता है। हमें आज का काम कल पर नहीं हटाना चाहिए। कबीर दास जी ने भी अपने दोहे के माध्यम से मानव जाति को यही समझाना चाहा है—

काल करे सो आज कर, आज करे सो अब,
पल में प्रलय होएगी, बहुरि करेगा कब।

समय का सदुपयोग करने से हमें और हमारे परिवार को लाभ ही होता है। समय नष्ट करने वाले आदमी को किसी न किसी मुसीबत का सामना करना ही पड़ता है। समय का अच्छे से उपयोग करने वाले व्यक्ति जीवन में ऊँचाइयाँ तो प्राप्त करते ही हैं, साथ ही साथ यश की प्राप्ति भी करते हैं। अंग्रेजी में समय को सोने के समान बताया गया है—‘टाइम इज गोल्ड’, अतः समय की कीमत पहचान कर उसके अनुसार कदम से कदम मिलाकर चलना चाहिए।

नियति खुराना
आठवीं – ब

यह मानव जाति है

उलझनों और कशमकश में

उम्मीद की ढ़ाल लिए बैठा हूँ ,

आशा के दामन में.....

उजाले की प्रतीक्षा में बैठा हूँ ।

मानव गिरा भी है, टूटा भी है, तपा भी है, जला भी है,

परंतु बिखरा नहीं है,

फिर खड़ा होकर दौड़ा भी है, जुड़ा भी है, भीगा भी है, संभला भी है,

ऐ जिंदगी! तेरी हर चाल के लिए मैं पलटवार लिए बैठा हूँ।

लुत्फ़ उठा रहा हूँ मैं भी आंख मिचौली का

मिलेगी कामयाबी हौसला कमाल का लिए बैठा हूँ।

कठिन घड़ी में, संयम की परीक्षा में,

मैं वक्त लिए बैठा हूँ ।

यह गहराइयाँ, यह लहरें, यह तूफान – तुम्हें मुबारक

मैं कष्टियां और दोस्त बेमिसाल लिए बैठा हूँ।

हर्षिता ठाकुर

दसवीं – अ

बीतेगा यह दौर.....

बीतेगा यह दौर भी इक दिन, फिर लौट के खुशियाँ आएँगी,

बाधाएँ सब हट जाएँगी, काली रातें छट जाएँगी ।

जीवन में मंजिल वही पाता है, जो मानता कभी न हार है,

चढ़कर गिरना, गिरकर चढ़ना, यही जीवन का सार है ।

आत्मबल से ही जीवन में सफलता के अवसर बढ़ते हैं,

कामयाबी उसी को मिलती है, जो संघर्ष की सीढ़ियाँ चढ़ते हैं ।

हर समस्या का कभी न कभी समाधान होगा,

एक दिन यह महामारी खत्म होगी, फिर से जीना आसान होगा ।

बुरे वक्त से सीख लेकर भविष्य में आगे बढ़ना है,

हिम्मत और पुरुषार्थ से हमको, हर दुश्मन से लड़ना है ।

मुश्किल घड़ी ये हमें भला क्या मंजिल पाने से रोक पाएगी?

देख हमारी किस्मत यह जिंदगी खुशियों से सज जाएगी ।

मजबूत इरादों के साथ खुद पर विष्वास रखना होगा,

कामयाबी इक रोज मिलेगी बस खुद को तैयार रखना होगा ।

आयुष अरोड़ा

दसवीं – अ

कविता – आशा

हार के कभी न रुकना तू
हार से सुधरने की चाहत
रखना तू

जीत के साधन बनाना तू
और जिंदगी में
चलते और बढ़ते रहना तू
मुड़ के पीछे न देखना तू
अपने जीवन में हमेशा आशा बनाए
रखना तू

हमेशा खुश रहना तू

—हितिशा मेहता

साक्षरता मिशन

“शिक्षा से कभी
दूर मत रहना ,
तुम मानो यह
कहना । ”

-Nishtha Patel
~ VIII-B

पर्यावरण बचाओ

पेड़ की जब
करोगी रक्षा ,
तभी बनेगा
जीवन अच्छा । ”

-Nishtha Patel
~ VIII-B

साल 2020

जबसे आया साल 'दो हजार बीस' ।
लेकर आया बहुत सी बड़ी चीज़ ।
कर दिए सारे स्कूल, कॉलेज बंद ।
इसको लगा हो जाएगी हमारी पढ़ाई बंद,
लेकिन ऐसा हम होने नहीं देंगे ।
हम और पढ़ेंगे और हर बीमारी को हराएँगे ।
देंगे हम अपनी अध्यापिका का साथ,
मिल कर सब कर लेंगे यह साल पास ।
इसलिए अध्यापिका को 'म्यूट' नहीं 'सल्यूट' कीजिए ।

सोबान अहमद

तीन — ब

चिड़िया

गीत सुरीले गाती चिड़िया
जन—जन को बहलाती चिड़िया
सूरज की किरणों से पहले उठकर
हमको रोज उठाती चिड़िया ।
इधर — उधर से ही अपना खाना खाती चिड़िया ,
तिनका — तिनका इकट्ठा कर अपना घर बनाती चिड़िया ।
मेहनत करके दाना इकट्ठा करती चिड़िया ,
डालों पर बैठ अपना गाना गाती चिड़िया ।
उम्मीद और हँसले की पहचान है चिड़िया ,
हमको पाठ मेहनत का सिखाती चिड़िया ।
जिनकी शोभा उनके पंख
वह कहलाती चिड़िया ।

कविता पृथ्वी

पृथ्वी है एक ग्रह ऐसा
न है ब्रह्माण्ड में कोई ग्रह वैसा

इसके जंगलों में घने हैं वृक्ष
आसमान से दिखता है साफ़ अंतरिक्ष

पानी करता है यहाँ जीवन सफल
पेड़ पर भी उगते हैं स्वादिष्ट फल
रंग—बिरंगे फूलों से ये है भरी
अपनी प्यारी वसुन्धरा

नीली गहराई में है बसा
समुद्र अलग—अलग जीवों से भरा
पर हमें सता रही है एक बला
नाम है जिसका ग्लोबल वार्मिंग

जो है नतीजा मनुष्यों के बुरे काम का
शिकार, प्रदूषण एवं रसायनों के कारण
प्रकृति का है बुरा हाल
अगर हमें है उसे रोकना

पढ़ना होगा हमें एकता का पाठ
मिलजुल कर करना होगा इस मुसीबत का सामना

रब्ब

डरे हैं सब ,डरे डरे हैं सब
पता नहीं खत्म कब होगा यह अब
डरे हैं सब ,डरे डरे हैं सब
पता नहीं आगे क्या होना है अब

डरे हैं सब पता नहीं आगे होना क्या है अब
एक ही है बचाने वाला है वह साङ्गा रब्ब
इसी के नीचे हम सभी हैं दब
डरे हैं सब

कह रहे एक दूसरे से रहने को दूर
ऐसी घड़ी में क्या करेंगे हमारे मज़दूर
सारे सपने हुए चकनाचूर
कह रहे एक दूसरे से रहने को दूर

सोचो रब्ब के बारे में पूरा दिन
खत्म होगा यह जैसे करता एक चिराग का जिन्न
कुछ नहीं हो सकता है रब्ब के बिन
सोचो रब्ब के बारे में पूरा दिन

डरने से कुछ होने वाला नहीं है
ज्यादा मत सोचो इलाज इसका यही है
डरने से कुछ होने वाला नहीं है
ज्यादा मत सोचो इलाज इसका यही है

पढ़ाई का नया दौर

सुना रहा हूँ आज आपको
घर से क्लासेज़ करने की व्यथा
जब भी करता हूँ लोग इन कक्षाएँ ऑनलाईन
याद आती हैं स्कूल में प्रवेश करने की लाईन

बजती थी हर पीरियड से पहले भैया की घंटी
अब तो बस जलती है, पापा के मोबाइल की बत्ती
स्कूल से परीक्षा देकर जब आता
कहता मम्मी पेपर हुआ बहुत अच्छा

अब तो गृणन फार्म निहारता रहता हूँ
मम्मी समझ लेती है, अकल का मैं हूँ कच्चा
स्कूल की कैटिन से रोज़ खरीदता था समोसा
अब तो बस मिलता है, मम्मी का इडली-डोसा

दोस्तों से बातें करता था, हो जाता था हँसी-मजाक
अब तो सारा दिन पापा की डाँट खाकर
बस रहता है मूड खराब
घर बैठ कर पढ़ने से गया है सारा सिस्टम हिल

पर सभी कठिनाइयों को भुलाकर
अध्यापक पढ़ा रहे हैं रात और दिन
आशा करता हूँ बना रहेगा सदा
ऐसे ही उनका साथ

सभी अध्यापकों और सहायकों को
मेरा सादर नमन, मेरा सादर नमन

नील भारद्वाज
कक्षा – सात 'ब'

कुछ कर दिखाना है

जो बुराई से दूर रहते हैं
जो दूसरों की भलाई के काम करते हैं,
जो मानते अपनी गलतियों को
जो सत्य को कभी झूठलाते नहीं हैं,
वही कुछ कर दिखाते हैं।

जो समय व्यर्थ नहीं गँवाते हैं
जो अपनी बात के पक्के होते हैं,
जो नित पढ़ाई करते हैं
जो नित खेला करते हैं,
वही कुछ कर दिखाते हैं।

ऑनलाइन का है ज़माना

ईचक दाना बीचक दाना , दाने ऊपर दाना, ईचक दाना
आ गया ऑनलाइन क्लासेज़ का ज़माना, ईचक दाना
नहीं चलेगा अब तो पेट दर्द का बहाना, ईचक दाना
ईचक दाना बीचक दाना , दाने ऊपर दाना, ईचक दाना

कागज़ कलम का ज़माना हुआ पुराना, ईचक दाना
लैपटॉप हाथ में लिए कक्षा में है बतियाना, ईचक दाना
कहीं नहीं है जाना अब तो गूगल मीट पर है आना, ईचक दाना
माइक और कैमरे का बटन है दबाना, ईचक दाना

नहीं है सुबह की चहल—पहल, शाम को भी है वीराना, ईचक दाना
दोस्त हैं फेसबुक पर, व्हाट्स अप पर दादा — नाना, ईचक दाना
ऑनलाइन का आ गया है ज़माना, ईचक दाना
ईचक दाना बीचक दाना , दाने ऊपर दाना, ईचक दाना

चुटकुले

मुकेश : डॉक्टर साहब मुझे एक समस्या है।

डॉक्टर : क्या ?

मुकेश : बात करते वक्त मुझे आदमी दिखाई नहीं देता।

डॉक्टर : और ऐसा कब होता है ?

मुकेश : फोन पर बात करते वक्त।

मोटापा एक ऐसी चीज़ है जो दूसरों के पास ज्यादा देखकर जलन नहीं खुशी होती है।

घबराओ नहीं कोरोना वायरस ज्यादा दिन तक टिकेगा नहीं क्योंकि वह मेड इन चाइना है।

डॉक्टर : आपका वजन कितना है ?

समीर : चश्मे के साथ 75 किलो।

डॉक्टर : और चश्मे के बिना ?

समीर : मुझे दिखता ही नहीं।

दिव्यांशी कपूर

का महत्त्व

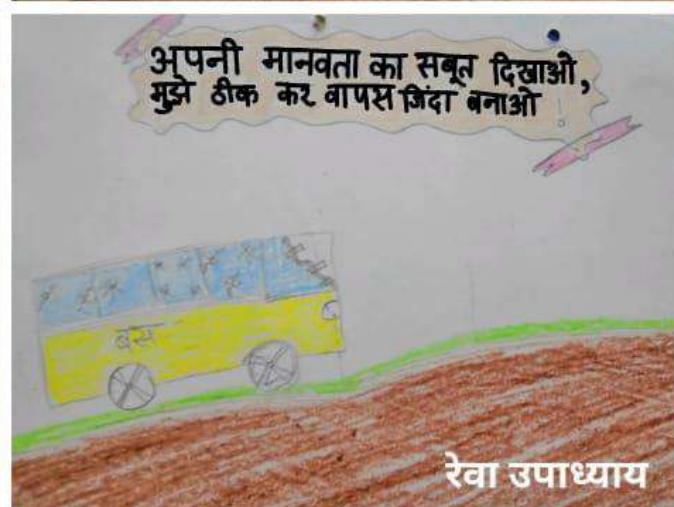

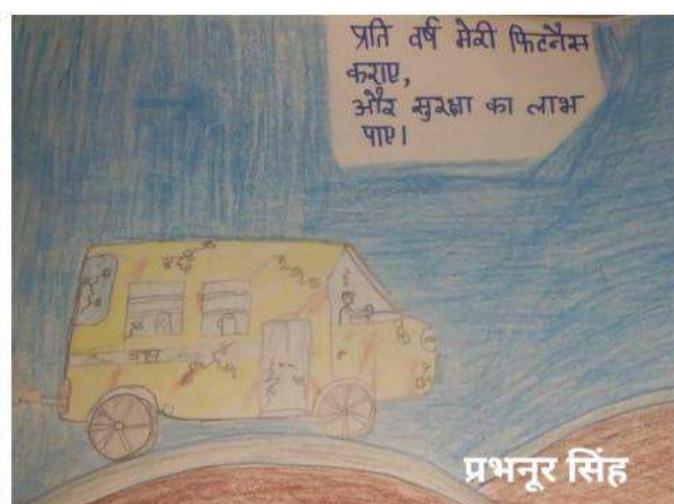

हिंदी भाषा भारत की मातृ भाषा है। यह भारत में सबसे ज्यादा बोले जाने वाली भाषा है। हिन्दी के द्वारा भारत के लोग एक—दूसरे से काफी अच्छी तरह जुड़े हुए हैं और देश को तरकी की एक नई ऊँचाइयों तक ले जा रहे हैं। हिंदी भाषा बोलने में बहुत सरल है और इसे बोलना और समझना बहुत ही आसान है। यह भाषा सभी लोगों को एकता के सूत्र में बाँधने का कार्य करती है।

१४ सितम्बर का दिन हिंदी दिवस के रूप में भारत में हर जगह मनाया जाता है। आज टी—वी तथा मनोरंजन की दुनिया में हिंदी भाषा सबसे ज्यादा मुनाफे की भाषा है। दुनिया में सबसे ज्यादा गाने हिंदी भाषा में ही बनाए गए हैं। भारत में यह एक ऐसी भाषा है जिसका इस्तेमाल गरीब—अमीर, बड़े—छोटे सभी लोग आसानी से करते हैं।

भारतीय हिंदी भाषा में अपनी भावनाओं को ठीक तरह से व्यक्त कर सकते हैं। दुनिया के कोने—कोने में हिंदी सीखने के लिए विद्यालय और कॉलेज खोले जा रहे हैं। भारत का संपूर्ण विकास हिंदी द्वारा ही संभव है। हिंदी भारतीय संस्कृति की आत्मा है इसलिए हिंदी के महत्त्व को सबको समझना चाहिए।
